iPad Accessories

iPad Case

The iPad Case is the perfect way to carry round your iPad. A soft microfibre interior and reinforced panels provide structure. And it folds to act as a stand, holding iPad at an ideal angle for watching videos and slideshows or for typing on the on-screen keyboard.

iPad Camera Connection Kit

The iPad Camera Connection Kit gives you two ways to import photos and videos from a digital camera: using your camera's USB cable or directly from an SD card. iPad supports standard photo formats, including JPEG and RAW.

iPad Dock

With the iPad Dock, you get easy access to a dock connector port for syncing or charging, and an audio line out port for connecting to powered speakers via an optional audio cable. The iPad Dock also supports other iPad accessories.

iPad Keyboard Dock

The iPad Keyboard Dock combines a dock for charging your iPad with a full-size keyboard, which includes special keys that activate iPad features. The dock has a rear dock connector port and an audio line-out port.

iPad 10W USB Power Adapter

The iPad 10W USB Power Adapter lets you charge your iPad directly through a power point. And the 1.8m power cord allows you to charge it from an even greater distance.

iPad Dock Connector to VGA Adapter

Watch slideshows and films on the big screen by connecting your iPad to a TV, monitor, projector or LCD display that uses a VGA connector.
